Item 4: Advisory Business

A. Description of the Advisory Firm

Mosaic FI LLC (hereinafter “Mosaic”) is a Limited Liability Company organized in the State of Illinois. The firm was formed in November 2013, and the principal owner is Jenifer Ann Aronson.

B. Types of Advisory Services

Mosaic offers the following services to advisory clients:

Portfolio Management Services

Mosaic offers ongoing portfolio management services based on the individual goals, objectives, time horizon, and risk tolerance of each client. Mosaic creates an Investment Policy Statement for each client, which outlines the client’s current situation (income, tax levels, and risk tolerance levels) and then constructs a plan to aid in the selection of a portfolio that matches each client’s specific situation.

Portfolio management services include, but are not limited to, the following:

- Investment strategy
- Asset allocation
- Risk tolerance
- Personal investment policy
- Asset selection
- Regular portfolio monitoring

Mosaic evaluates the current investments of each client with respect to their risk tolerance levels and time horizon. Risk tolerance levels are documented in the Investment Policy Statement, which is given to each client.

Mosaic seeks to provide that investment decisions are made in accordance with the fiduciary duties owed to its accounts and without consideration of Mosaic’s economic, investment or other financial interests. To meet its fiduciary obligations, Mosaic attempts to avoid, among other things, investment or trading practices that systematically advantage or disadvantage certain client portfolios, and, accordingly, Mosaic’s policy is to seek fair and equitable allocation of investment opportunities/transactions among its clients to avoid favoring one client over another over time. It is Mosaic’s policy to allocate investment opportunities and transactions it identifies as being appropriate and prudent, that might have a limited supply, among its clients on a fair and equitable basis over time.

Pension Consulting Services

Mosaic offers ongoing consulting services to pension or other employee benefit plans (including but not limited to 401(k) plans) based on the demographics, goals, objectives, time horizon, and/or risk tolerance of the plan's participants.

Financial Planning

Financial plans and financial planning may include but are not limited to: investment planning; life insurance; tax concerns; retirement planning; college planning; and debt/credit planning.

Services Limited to Specific Types of Investments

Mosaic generally limits its investment advice to mutual funds, fixed income securities, real estate funds (including REITs). Mosaic may use other securities as well to help diversify a portfolio when applicable.

C. Client Tailored Services and Client Imposed Restrictions

Mosaic will tailor a program for each individual client. Mosaic FI focuses on not just standard risk tolerance information but on the goals and objectives of each client. We have a fundamentally unique process (FUP) of evaluating each client to determine the appropriate asset allocation based on their needs and requirements this will include an interview session to get to know the client's specific needs and requirements as well as a plan that will be executed by Mosaic on behalf of the client. Mosaic may use "model portfolios" together with a specific set of recommendations for each client based on their personal restrictions, needs, and targets. Clients may impose restrictions in investing in certain securities or types of securities in accordance with their values or beliefs. However, if the restrictions prevent Mosaic from properly servicing the client account, or if the restrictions would require Mosaic to deviate from its standard suite of services, Mosaic reserves the right to end the relationship.

D. Wrap Fee Programs

A wrap fee program is an investment program where the investor pays one stated fee that includes management fees, transaction costs, fund expenses, and any other administrative fees. Mosaic does not participate in any wrap fee programs.

E. Assets Under Management

Mosaic has the following assets under management:

Discretionary Amounts:	Non-discretionary Amounts:	Date Calculated:
\$36,439,125.00	\$0.00	December 2019

Item 5: Fees and Compensation

A. Fee Schedule

Portfolio Management Services Fees

Total Assets Under Advisement	Annual Fee
Up to 1,000,000	1.00%
\$1,000,000 to \$3,000,000	0.75%
Above \$3,000,000	0.50%

Mosaic bills based on the balance on the first day of the billing period.

These fees are negotiable and the final fee schedule is attached as Exhibit II of the Investment Advisory Contract. Unless a client has received Mosaic's disclosure brochure (this Form ADV Part 2A) at least 48 hours prior to signing the Investment Advisory Contract, the client may terminate the advisory relationship within five business days of signing the contract without penalty, for full refund of Mosaic's fees. Thereafter, clients may terminate the Investment Advisory Contract with one day's written notice.

Pension Consulting Services Fees

The rate for pension consulting services are between 0.50% and 1.00% of the plan assets for which Mosaic is providing such consulting services. These fees are negotiable.

Mosaic charges a minimum \$50 per quarter per participant fee, and a maximum \$125 per quarter per participant fee.

Financial Planning Fees

Fixed Fees

The rate for creating client financial plans is \$2,500. The fee is negotiable and the final fee schedule will be attached as Exhibit II of the Financial Planning Agreement.

B. Payment of Fees

Payment of Portfolio Management Fees

Portfolio management fees are withdrawn directly from the client's accounts with client's written authorization. Fees are paid quarterly.

Payment of Pension Consulting Services Fees

Pension Consulting fees are withdrawn directly from the client's accounts with client's written authorization. Fees are paid quarterly.

Payment of Financial Planning Fees

Fixed Financial Planning fees are paid via check. Fees are paid upon completion.

C. Client Responsibility For Third Party Fees

Clients are responsible for the payment of all third party fees (i.e. custodian fees, brokerage fees, mutual fund fees, transaction fees, etc.). Those fees are separate and distinct from the fees and expenses charged by Mosaic. Please see Item 12 of this brochure regarding broker/custodian.

D. Prepayment of Fees

Mosaic collects fees in advance. Refunds for fees paid in advance will be returned within fourteen days to the client via check, or return deposit back into the client's account.

For all asset-based fees paid in advance, the fee refunded will be the balance of the fees collected in advance minus the daily rate* times the number of days in the billing period up to and including the day of termination. (*The daily rate is calculated by dividing the annual asset-based fee by 365.)

E. Outside Compensation For the Sale of Securities to Clients

Neither Mosaic nor its supervised persons accept any compensation for the sale of securities or other investment products, including asset-based sales charges or service fees from the sale of mutual funds.

Item 6: Performance-Based Fees and Side-By-Side Management

Mosaic does not accept performance-based fees or other fees based on a share of capital gains on or capital appreciation of the assets of a client.

Item 7: Types of Clients

Mosaic generally provides advisory services to the following types of clients:

- ❖ Individuals
- ❖ High-Net-Worth Individuals
- ❖ Corporations or Business Entities
- ❖ Pension and Profit Sharing Plans

Minimum Account Size

There is no account minimum.

Item 8: Methods of Analysis, Investment Strategies, and Risk of Investment Loss

A. Methods of Analysis and Investment Strategies

Methods of Analysis

Mosaic's methods of analysis include fundamental analysis, technical analysis, cyclical analysis, quantitative analysis and modern portfolio theory.

Fundamental analysis involves the analysis of financial statements, the general financial health of companies, and/or the analysis of management or competitive advantages.

Technical analysis involves the analysis of past market data; primarily price and volume.

Cyclical analysis involved the analysis of business cycles to find favorable conditions for buying and/or selling a security.

Quantitative analysis deals with measurable factors as distinguished from qualitative considerations such as the character of management or the state of employee morale, such as the value of assets, the cost of capital, historical projections of sales, and so on.

Modern portfolio theory is a theory of investment which attempts to maximize portfolio expected return for a given amount of portfolio risk, or equivalently minimize risk for a given level of expected return, by carefully choosing the proportions of various assets.

Investment Strategies

Mosaic uses long term trading and short term trading.

Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

B. Material Risks Involved

Methods of Analysis

Fundamental analysis concentrates on factors that determine a company's value and expected future earnings. This strategy would normally encourage equity purchases in stocks that are undervalued or priced below their perceived value. The risk assumed is that the market will fail to reach expectations of perceived value.

Technical analysis attempts to predict a future stock price or direction based on market trends. The assumption is that the market follows discernible patterns and if these patterns can be identified then a prediction can be made. The risk is that markets do not always follow patterns and relying solely on this method may not work long term.

Cyclical analysis assumes that the markets react in cyclical patterns which, once identified, can be leveraged to provide performance. The risks with this strategy are two-fold: 1) the markets do not always repeat cyclical patterns and 2) if too many investors begin to implement this strategy, it changes the very cycles these investors are trying to exploit.

Quantitative Model Risk. Investment strategies using quantitative models may perform differently than expected as a result of, among other things, the factors used in the models, the weight placed on each factor, changes from the factors' historical trends, and technical issues in the construction and implementation of the models.

Modern Portfolio Theory assumes that investors are risk adverse, meaning that given two portfolios that offer the same expected return, investors will prefer the less risky one. Thus, an investor will take on increased risk only if compensated by higher expected returns. Conversely, an investor who wants higher expected returns must accept more risk. The exact trade-off will be the same for all investors, but different investors will evaluate the trade-off differently based on individual risk aversion characteristics. The implication is that a rational investor will not invest in a portfolio if a second portfolio exists with a more favorable risk-expected return profile – i.e., if for that level of risk an alternative portfolio exists which has better expected returns.

Investment Strategies

Mosaic's use of short term trading generally holds greater risk and clients should be aware that there is a material risk of loss using any of those strategies.

Long term trading is designed to capture market rates of both return and risk. Due to its nature, the long-term investment strategy can expose clients to various types of risk that will typically surface at various intervals during the time the client owns the investments. These risks include but are not limited to inflation (purchasing power) risk, interest rate risk, economic risk, market risk, and political/regulatory risk.

Short term trading risks include liquidity, economic stability and inflation, in addition to the long term trading risks listed above. Frequent trading, can affect investment performance, particularly through increased brokerage and other transaction costs and taxes.

Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

C. Risks of Specific Securities Utilized

Clients should be aware that there is a material risk of loss using any investment strategy. The investment types listed below (leaving aside Treasury Inflation Protected/Inflation Linked Bonds) are not guaranteed or insured by the FDIC or any other government agency.

Mutual Funds: Investing in mutual funds carries the risk of capital loss and thus you may lose money investing in mutual funds. All mutual funds have costs that lower investment returns. They can be of bond "fixed income" nature (lower risk) or stock "equity" nature (mentioned below).

Fixed income investments generally pay a return on a fixed schedule, though the amount of the payments can vary and include corporate and government debt securities, leveraged loans, high yield, and investment grade debt and structured products, such as mortgage and other asset-backed securities, although individual bonds may be the best known type of fixed income security. In general the fixed income market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk, liquidity risk, call risk and credit and default risks for both issuers and counterparties. The risk of default on treasury inflation protected/inflation linked bonds is dependent upon the U.S. Treasury defaulting (extremely unlikely); however, they carry a potential risk of losing share price value, albeit rather minimal. Risks of investing in foreign fixed income securities also include the general risk of non-U.S. investing described below.

Real Estate funds (including REITs) face several kinds of risk that are inherent in the real estate sector, which historically has experienced significant fluctuations and cycles in performance. Revenues and cash flows may be adversely affected by: changes in local real estate market conditions due to changes in national or local economic conditions or changes in local property market characteristics; competition from other properties offering the same or similar services; changes in interest rates and in the state of the debt and equity credit markets; the ongoing need for capital improvements; changes in real estate tax rates and other operating expenses; adverse changes in governmental rules and fiscal policies; adverse changes in zoning laws; the impact of present or future environmental legislation and compliance with environmental laws.

Past performance is not indicative of future results. Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

Item 9: Disciplinary Information

A. Criminal or Civil Actions

There are no criminal or civil actions to report.

B. Administrative Proceedings

There are no administrative proceedings to report.

C. Self-regulatory Organization (SRO) Proceedings

There are no self-regulatory organization proceedings to report.

Item 10: Other Financial Industry Activities and Affiliations

As a fiduciary, Mosaic Fi LLC has certain legal obligations, including the obligation to act in clients' best interest. Mosaic Fi LLC maintains a Business Continuity and Succession Plan and seeks to avoid a disruption of service to clients in the event of an unforeseen loss of key personnel, due to a disability or death. To that end, Mosaic Fi LLC has entered into a succession agreement with Strategic Wealth Partners Group, LLC, effective September 14, 2017. Mosaic Fi LLC can provide additional information to any current or prospective client upon request to Jenifer A. Aronson, CFA, Managing Partner at (773) 425-6790 or jenifer@mosaicfi.com;

A. Registration as a Broker/Dealer or Broker/Dealer Representative

Neither Mosaic nor its representatives are registered as, or have pending applications to become, a broker/dealer or a representative of a broker/dealer.

B. Registration as a Futures Commission Merchant, Commodity Pool Operator, or a Commodity Trading Advisor

Neither Mosaic nor its representatives are registered as or have pending applications to become either a Futures Commission Merchant, Commodity Pool Operator, or Commodity Trading Advisor or an associated person of the foregoing entities.

C. Registration Relationships Material to this Advisory Business and Possible Conflicts of Interests

Neither Mosaic nor its representatives have any material relationships to this advisory business that would present a possible conflict of interest.

D. Selection of Other Advisers or Managers and How This Adviser is Compensated for Those Selections

Mosaic does not utilize nor select third-party investment advisers. All assets are managed by Mosaic management.

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

A. Code of Ethics

Mosaic has a written Code of Ethics that covers the following areas: Prohibited Purchases and Sales, Insider Trading, Personal Securities Transactions, Exempted Transactions, Prohibited Activities, Conflicts of Interest, Gifts and Entertainment, Confidentiality, Service on a Board of Directors, Compliance Procedures, Compliance with Laws and Regulations, Procedures and Reporting, Certification of Compliance, Reporting Violations, Compliance Officer Duties, Training and Education, Recordkeeping, Annual Review, and Sanctions. Our Code of Ethics is available free upon request to any client or prospective client.

B. Recommendations Involving Material Financial Interests

Mosaic does not recommend that clients buy or sell any security in which a related person to Mosaic or Mosaic has a material financial interest.

C. Investing Personal Money in the Same Securities as Clients

From time to time, representatives of Mosaic may buy or sell securities for themselves that they also recommend to clients. This may provide an opportunity for

representatives of Mosaic to buy or sell the same securities before or after recommending the same securities to clients resulting in representatives profiting off the recommendations they provide to clients. Such transactions may create a conflict of interest. Mosaic will always document any transactions that could be construed as conflicts of interest and will never engage in trading that operates to the client's disadvantage when similar securities are being bought or sold.

D. Trading Securities At/Around the Same Time as Clients' Securities

From time to time, representatives of Mosaic may buy or sell securities for themselves at or around the same time as clients. This may provide an opportunity for representatives of Mosaic to buy or sell securities before or after recommending securities to clients resulting in representatives profiting off the recommendations they provide to clients. Such transactions may create a conflict of interest; however, Mosaic will never engage in trading that operates to the client's disadvantage when similar securities are being bought or sold.

Item 12: Brokerage Practices

A. Factors Used to Select Custodians and/or Broker/Dealers

Custodians/broker-dealers will be recommended based on Mosaic's duty to seek "best execution," which is the obligation to seek to execute securities transactions for a Client on terms that are the most favorable to the Client under the circumstances. The client will not necessarily pay the lowest commission or commission equivalent, and Mosaic may also consider the market expertise and research access provided by the payment of commissions, including but not limited to access to written research, oral communication with analysts, admittance to research conferences and other resources provided by the brokers to aid in the research efforts of Mosaic. Mosaic will never charge a premium or commission on transactions, beyond the actual cost imposed by the broker-dealer/custodian. Mosaic will only refer clients to broker-dealers/custodians properly registered in that state in which the client resides. Mosaic recommends TD Ameritrade Institutional, a division of TD Ameritrade, Inc. Member FINRA/SIPC/NFA.

1. Research and Other Soft-Dollar Benefits

While Mosaic has no formal soft dollars program in which soft dollars are used to pay for third party services, Mosaic may receive research, products, or other services from its broker/dealer in connection with client securities transactions ("soft dollar benefits") consistent with (and not outside of) the safe harbor contained in Section 28(e) of the Securities Exchange Act of 1934, as amended, and may consider these benefits in recommending brokers. There can be no assurance that any particular client will benefit from any particular soft dollar research or other benefits. Mosaic benefits by not having to produce or pay for the research, products or services, and

Mosaic will have an incentive to recommend a broker dealer based on receiving research or services. Clients should be aware that Mosaic's acceptance of soft dollar benefits may result in higher commissions charged to the client.

2. Brokerage for Client Referrals

Mosaic receives no referrals from a broker-dealer or third party in exchange for using that broker-dealer or third party.

3. Clients Directing Which Broker/Dealer/Custodian to Use

Mosaic will require clients to use a specific broker-dealer to execute transactions.

B. Aggregating (Block) Trading for Multiple Client Accounts

If Mosaic buys or sells the same securities on behalf of more than one client, it might, but would be under no obligation to, aggregate or bunch, to the extent permitted by applicable law and regulations, the securities to be purchased or sold for multiple Clients in order to seek more favorable prices, lower brokerage commissions or more efficient execution. In such case, Mosaic would place an aggregate order with the broker on behalf of all such clients in order to ensure fairness for all clients; provided, however, that trades would be reviewed periodically to ensure that accounts are not systematically disadvantaged by this policy. Mosaic would determine the appropriate number of shares to place with brokers and will select the appropriate brokers consistent with the Adviser's duty to seek best execution, except for those accounts with specific brokerage direction (if any).

Item 13: Reviews of Accounts

A. Frequency and Nature of Periodic Reviews and Who Makes Those Reviews

All client portfolio management accounts are reviewed at least monthly only by Jenifer Ann Aronson, Managing Partner and Chief Compliance Officer, with regard to clients' respective investment policies and risk tolerance levels.

All financial planning accounts are reviewed upon financial plan creation and plan delivery by Jenifer Ann Aronson, Managing Partner and Chief Compliance Officer. There is only one level of review for financial plans, and that is the total review conducted to create the financial plan.

B. Factors That Will Trigger a Non-Periodic Review of Client Accounts

Portfolio management reviews may be triggered by material market, economic or political events, or by changes in client's financial situations (such as retirement, termination of employment, physical move, or inheritance).

With respect to financial plans, Mosaic's services will generally conclude upon delivery of the financial plan.

C. Content and Frequency of Regular Reports Provided to Clients

Each portfolio management client will receive at least quarterly a written report that details the client's account including assets held and asset value, which report will come from the custodian and at least quarterly a written report from Mosaic.

Each financial planning client will receive the financial plan upon completion

Item 14: Client Referrals and Other Compensation

A. Economic Benefits Provided by Third Parties for Advice Rendered to Clients (Includes Sales Awards or Other Prizes)

Mosaic does not receive any economic benefit, directly or indirectly from any third party for advice rendered to Mosaic clients.

B. Compensation to Non - Advisory Personnel for Client Referrals

Mosaic does not directly or indirectly compensate any person who is not advisory personnel for client referrals.

Item 15: Custody

When it deducts fees directly from client accounts at a selected custodian, Mosaic will be deemed to have limited custody of client's assets and must have written authorization from the client to do so. Clients will receive all account statements and billing invoices that are required in each jurisdiction, and they should carefully review those statements for accuracy.

Item 16: Investment Discretion

Mosaic provides discretionary investment advisory services to clients. The Investment Advisory Contract established with each client outlines the discretionary authority for trading. Where investment discretion has been granted, Mosaic generally manages the client's account and makes investment decisions without consultation with the client as to what securities to buy or sell, when the securities are to be bought or sold for the account, the total amount of the securities to be bought/sold, or the price per share. In some instances, Mosaic's discretionary authority in making these determinations may be limited by conditions imposed by a client (in investment guidelines or objectives, or client instructions otherwise provided to Mosaic).

Item 17: Voting Client Securities (Proxy Voting)

Mosaic will not ask for, nor accept voting authority for client securities. Clients will receive proxies directly from the issuer of the security or the custodian. Clients should direct all proxy questions to the issuer of the security.

Item 18: Financial Information

A. Balance Sheet

Mosaic neither requires nor solicits prepayment of more than \$500 in fees per client, six months or more in advance and therefore does not need to include a balance sheet with this brochure.

B. Financial Conditions Reasonably Likely to Impair Ability to Meet Contractual Commitments to Clients

Neither Mosaic nor its management has any financial condition that is likely to reasonably impair Mosaic's ability to meet contractual commitments to clients.

C. Bankruptcy Petitions in Previous Ten Years

Mosaic has not been the subject of a bankruptcy petition in the last ten years.

Item 19: Requirements For State Registered Advisers

A. Principal Executive Officers and Management Persons; Their Formal Education and Business Background

Mosaic currently has only one management person/executive officer: Jenifer Ann Aronson. Education and business background can be found on the Form ADV Part 2B brochure supplement for such individual.

B. Other Businesses in Which This Advisory Firm or its Personnel are Engaged and Time Spent on Those (If Any)

Other business activities for each relevant individual can be found on the Form ADV Part 2B brochure supplement for each such individual.

C. How Performance-based Fees are Calculated and Degree of Risk to Clients

Mosaic does not accept performance-based fees or other fees based on a share of capital gains on or capital appreciation of the assets of a client.

D. Material Disciplinary Disclosures for Management Persons of this Firm

No management person at Mosaic or Mosaic has been found liable in an arbitration claim or been found liable in a civil, self-regulatory organization, or administrative proceeding that is material to the client's evaluation of the firm or its management.

E. Material Relationships That Management Persons Have With Issuers of Securities (If Any)

See Item 10.C and 11.B.
